Highly Qualified Care

We thoroughly screen our staff before they are hired. Our process is of the highest quality and of the most stringent qualifications:

A licensed RN completes the initial assessment for all patients.

We have LPNs, RNs and a nurse practitioner on staff.

Most of our routine home visits are conducted by STNAs – State Tested Nurse Aides. We feel so strongly about the quality of our STNAs, we started our own school to train them: **Boschulte's Pride** Health Care and Learning Center.

Every aide has 75 hours of training, and keeps pace with continuing education, provided at our training center.

All of our aides are fingerprinted and have passed stringent background checks for your safety and peace of mind.
